

SBIC's 2008 *Beyond Green*TM High-Performance Building Awards Jury

Gregg D. Ander, FAIA

Gregg D. Ander, FAIA, is the Chief Architect of Southern California Edison. He was the Executive Producer of six environmentally focused television programs for NBC, CBS, and PBS. In 2006, one of these, "Greener Buildings/Bluer Skies," won an Emmy award.

Mr. Ander is a member of American Institute of Architects (AIA), Illuminating Engineering Society of North America, American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE) and serves on the Board of Directors of SBIC, the New Buildings Institute, the Collaborative for High Performance Schools, and the California Commissioning Collaborative. He has authored over 70 technical and design related articles and has won awards for various energy related projects from AIA, ASHRAE, the U.S. Department of Energy, and the National Academy of Television Arts and Sciences. He was one of the first funders of the United States Green Building Council.

He has commissioned a wide variety of building and lighting research efforts including, field studies for photocontrols, Light-Emitting Diode (LED) performance assessments, and remote connectivity for demand response. He is the author of the book "Daylighting Performance and Design," published by John Wiley & Sons.

Marianne Cusato

Marianne Cusato, a thought leader in the fields of architectural and urban design, is known for her emphasis on building better – not bigger. Ranked the number four most influential person in the home building industry in *Builder* magazine's annual "Power on 50" list, Cusato and her design principles are changing the landscape of the housing industry.

Ms. Cusato is well-known for her work on the Katrina Cottages, which are now sold in kit form at Lowe's home centers nationwide. In 2006, her 308 square foot Katrina Cottage won the Smithsonian Institute's Cooper-Hewitt Design Museum's "People's Design Award." In June 2006, Congress appropriated \$400 million for an alternative emergency housing program, based on the idea of the Katrina Cottage.

Cusato has also been honored with the American Society of Interior Designers 2007 ASID Design for Humanity Award and the American Institute of Building Designers Florida Society 2007 Honor Award of Excellence. She is the author of two books, "Get Your House Right, Architectural Elements to Use and Avoid," with Ben Pentreath, Richard Sammons and Leon Krier, foreword by HRH the Prince of Wales, published by Sterling Publishing and "The Value of Design" published by James Hardie.

Born and raised in Anchorage, Alaska, Ms. Cusato is a graduate of the University of Notre Dame and is currently based in Miami, Fla. She is the founder of Cusato Cottages, LLC

Kevin Kampschroer

Kevin Kampschroer is the Acting Director, of the new Office of Federal High-Performance Green Buildings, created by the Energy Independence & Security Act (EISA) of 2007, in the U.S. General Services Administration's Public Buildings Service. The Office is responsible for ensuring all federal buildings are meeting the sustainable design and energy-reduction targets identified in the new mandate. This newly created office works in conjunction with the Department of Energy, which has the responsibility of commercial buildings.

Dr. Get W. Moy, P.E.

Dr. Get W. Moy is the Associate Vice President and senior program director for federal projects for DMJM H&N, a global design, management, and technical services firm. For over two decades, Dr. Moy has served as an engineer for various sectors of the federal government including the Navy and the U.S. Department of Defense (DoD). As the Director of Installations Requirements and Management at the DoD, he was responsible for the administration and direction of installations worldwide. His duties included assuring a consistent quality of life for military personnel, the appropriate sizing of domestic and overseas base structures and improving installation management.

Dr. Moy is the recipient of the U.S. 2007 Presidential Rank Award for Meritorious Service. Winners of this prestigious honor are recognized for demonstrating integrity, diligence, and an unyielding pledge to quality in public service. In January 2008, Dr. Moy also received the National Institute of Building Sciences President's Award, presented to individuals who have substantially improved the building process through government service. He is a Fellow in the American Society of Civil Engineers, a member of the United States Naval Institute, the Society of American Military Engineers, and the Tau Beta Pi Engineering Honor Society.

Marcella Abadi Rhoads, AIA, RAS

An award-winning architect, Marcella Abadi Rhoads, AIA, RAS started her own firm, Abadi Architecture and Accessibility, in 2004. Ms. Abadi Rhoads is a registered Architect as well as a registered Accessibility Specialist, allowing her to provide customers with a range of services, including commercial and residential design as well as handicap accessibility consulting. She has been practicing architecture since the early 1990's and has been licensed to practice architecture in the State of Texas since 1999.

In 2005, Ms. Abadi Rhoads was inducted into the Manchester's "Who's Who of Executives and Professionals." Other awards and recognition for this dynamic business owner include the 2006 AIA Dallas Commendation for service to the architectural community, 2005 AIA Dallas Citation in recognition of outstanding achievement, 1999 AIA Young Architect of the year, and 1996 AIA Intern Architect of the year. Her work has been featured in *Moderna Magazine*.

Mack Scogin

Mack Scogin is a principal in the firm of Mack Scogin Merrill Elam Architects, in Atlanta, Georgia. He is Kajima Adjunct Professor of Architecture at the Harvard University Graduate School of Design where he was the Chairman of the Department of Architecture from 1990 to 1995. With Merrill Elam, he received the 1995 Academy Award in Architecture from the American Academy of Arts and Letters, a 1996 Chrysler Award for Innovation in Design, the 2006 Boston Society of Architects Harleston Parker Medal and a 2008 Honorary Fellowship in the Royal Institute of British Architects (RIBA). Projects by Mack Scogin Merrill Elam Architects have received over fifty design awards including six national AIA Awards of Excellence. Their work has been widely featured in popular and academic publications on architecture including the

1992 Rizzoli publication, "Scogin Elam and Bray: Critical Architecture / Architectural Criticism," the 1999 University of Michigan publication "Mack & Merrill" and the 2005 Princeton Architectural Press publication "Mack Scogin Merrill Elam: Knowlton Hall." Their work has been exhibited at many museums and galleries including: Museum of Modern Art; Walker Art Center; Wexner Center for the Arts; Museum of Contemporary Art in Barcelona, Spain; Deutches Architektur Museum in Frankfurt, Germany; and the Global Architecture Gallery in Tokyo, Japan.

Recent projects include the new U.S. Federal Courthouse in Austin, Texas; New Student Housing at Syracuse University; the Yale University Health Services Center; the Gates Center for Computer Science at Carnegie Mellon University; the Lulu Chow Wang Campus Center and Davis Garage for Wellesley College; the Knowlton School of Architecture for The Ohio State University; the Jean Gray Hargrove Music Library for the University of California at Berkeley; the Herman Miller Cherokee Operations Facility in Canton, Georgia; the Zhongkai Sheshan Villas in Shanghai, China and various projects for Tishman Speyer Properties.
